This architectural cross-section, labeled C-C, illustrates the structural details of a building's roof and floor system. The drawing uses color-coding to distinguish between existing and proposed construction: black outlines represent existing structures, while red outlines and dimensions indicate new construction. The roof is a gabled structure with a central ridge. The left slope has a 5.24% pitch, and the right slope has a 17.22% pitch. Both slopes are marked with '4 arrêts de neige' (4 snow stops). The existing roof pitch on the left is 15%. The section shows a multi-level interior with a proposed intermediate floor. Key dimensions are provided in red: a total height of 343.9 units on the left, a height of 376 units for the lower section, and a height of 250.9 units for the upper section on the right. A central vertical dimension of 317.26 units is also shown. The section is divided into bays by vertical structural elements, labeled H, Ga G, F, E, D, C, B, and A from left to right. Elevation markers are present on both sides: on the left, +9.204, +6.90, +3.43, and +0.17 (labeled 'ces de parc' and 'E0.00'); on the right, +6.44, +3.93, +3.34, and +0.17. The ground level is indicated by a hatched area at the bottom.

A construire

This architectural cross-section drawing illustrates the East facade (Façade EST) of a building, detailing its structural components and construction phases. The drawing is oriented horizontally, with the ground line at the bottom and the sky above. The building's profile is defined by a series of vertical grid lines labeled A, B, C, D, E, F, G, Ga, and H. The roofline is shown with various slopes: 17.22% between A and B, 15% between D and E, and 5.24% between F and H. Key levels are indicated throughout the drawing, including +6.44, +3.93, +3.34, +0.17, +6.03, +4.43, +2.17, +1.17, +9.204, +6.90, +3.43, +0.17, and -0.00. The drawing shows existing structures in grey and new construction in red. A central section between D and E is marked as 'Bâtiment voisin' (neighboring building) and is shown in white. The ground level is marked as -0.00, and the parking area is labeled 'Places de parc'. The drawing also includes details for snow stops ('4 arrêts de neige') and emergency exits ('Sortie Secours').

The drawing shows a long, low building facade with a series of vertical structural elements. Key features include:

- Levels:** +9.204 (top roof), +6.79 (upper floor), +3.77 (lower floor), and +0.17 (ground level).
- Dimensions:** Horizontal dimensions of 600 units are marked between grid lines 1 through 11. Specific dimensions of 229 and 371 are noted near grid line 3a.
- Structural Details:** Blue diagonal lines indicate structural bracing or reinforcement. Red lines highlight specific construction or demolition areas.
- Labels:** "Niv. +3.31" is marked on the facade. "6098" is noted near the bottom center.
- Adjacent Building:** A section of an adjacent building ("Bâtiment voisin") is shown to the right, with levels +3.33 and +3.34.
